## 46 NON MAGNETIC TOOL

TA01053

\*Image is for illustration purposes only

### PRODUCT DESCRIPTION

The 46 Piece Non-Magnetic Tool Kit is a comprehensive kit for EOD operations. It allows bomb disposal technicians to disable explosive devices without producing sparks as a result of magnetism.

All tools are manufactured from beryllium copper alloy and wrapped in heavy duty fabric cases with non-magnetic fittings and placed in individual foam tray cutouts that make it easy to tell if one of them is missing. They are all suitable for contact use and are individually certified.

\*Approximate weight of kit: 11kg
