Equipment and Training

## CERAMIC KNIFE

TA01061

\*Image is for illustration purposes only

### PRODUCT DESCRIPTION

Military and Police units worldwide have employed this knife for EOD missions and other tasks. It's completely non-magnetic, non-conductive and water-resistant.

Salt water canoeists and sailors love this product, using it for a multitude of tasks. This model has been improved over time and now offers a black ceramic blade, a non-slip grip feature, and an optional nylon belt sheath. The three inch blade is perfect for handling most tasks and the extremely sharp point is required by most explosive disposal units for making small openings in sealed packages.
