PORTABLE JAMMER

TA02096

*Image is for illustration purposes only

PRODUCT DESCRIPTION

The Portable Jammer enables the blocking of GSM cellular networks along with other types of networks employing state of the art technology for maximum performance. It transmits noise signals which cut off all cellular communication between mobile phones and their networks completely disabling them from receiving or making calls in the affected area. Extent of the jammer radius depends on signal strength in a given location. Users trying to make outgoing calls or receive incoming ones will receive a “NO SERVICE” sign on their mobile phone display.
