LAW ENFORCEMENT Equipment and Training

VIDEO SCOPE

TA01029

*Image is for illustration purposes only

PRODUCT DESCRIPTION

This advanced videoscope is perfect for surveillance operations, allowing hostile combatants to be seen around corners, over walls, under doors, and inside ceilings from a distance of more than 20 ft. It combines a powerful internal 980nm IR laser light source with electronically-enhanced, low-light video processing that enables operators to see in the dark. This innovative battery-powered device has a built-in high resolution monocular video display allowing several people to view images at the same time, as well as complete stand-alone capability.
