PRODUCT DESCRIPTION

Our Active Interception is the most advanced and newest GSM interception system available today. The system was developed with the help of the vast experience TAR has gathered in the last 10 years, while deploying hundreds of GSM interception systems worldwide. It is a stand-alone solution for seamless off the air interrogation / interception / monitoring / deception of tactical GSM communication, without cooperation with the network provider. This product is restricted for Law Enforcement Agencies and Authorized Governmental Agencies and offers them a powerful tool for the interception and tracking of GSM communication of all types.
