PRODUCT DESCRIPTION

- The TAR Speed Detection System is the smallest and lightest speed detection and monitoring device on the market, offering an exceptional level of performance and target accuracy for the use of traffic police.
- The speed detection technology provides 1:1 vision without magnification, ensuring precise vehicle targeting, detection and minimum eye strain.
- TAR speed detection uses the HUD (The Heads-Up Display) technology for range applications at up to 2,000 ft. along with full speed tracking history
- Simple 4-button format.
- Easy “point-and-shoot” operation.

Speed Range: 5 to 200 mph (8 TO 320 kph)

Speed Accuracy: +/- 1 mph (+/- 2 kph)

Target Range: 10' to 2000'

Pulse Rate: 200 pps
