PRODUCT DESCRIPTION

The OMER1, an original Israeli invention (Pat No. 71719), is a Professional Descender with a quick release mechanism that was developed for use by SWAT teams, Counter Terror and Special Forces around the world. Its uses include: Rappelling, Rescue and Military applications. The Following features and advantages of the OMER1 make it a unique apparatus in its field:

1. Rappelling may be done with one hand only.
2. Suitable for rappelling with either hand.
3. Sliding speed can be controlled.
4. Suitable for both types of rappelling: Controlled or Hop-Rappelling.
5. Maximum safety – stops automatically if handle is released or pressed too hard.
6. No need for double-length rope. The rope's length is long enough for most rappelling heights.
7. Requires no special knowhow or auxiliary equipment.
