FOLDABLE POLE LADDER

TA06054

*Image is for illustration purposes only

PRODUCT DESCRIPTION

The lightweight tactical folding ladder is ideal for urban terrain environments. It's easy to carry, and very operational for time-pressing situations. It's specially customized for low profile activity in tall, narrow passages. The ladder has a massive hook at the end that securely holds the weight of the climber. The rod tube, the climbing step, as well as the hook are all made from aircraft aluminum and titanium, providing this advanced device its durability and functionality. With the maximum carrying weight of up to 140 kg, rod tube weight of 4.5 kg, rod length of 230 cm and step climbing width of 14 cm.
