### PRODUCT DESCRIPTION

Stainless steel and hard anodized materials make our 60 foot Cable Rescue Ladder one of the most durable and dependable items in a squadron's equipment inventory. It features a 5000 lb. load rating, 12" rung spacing, anti-slip rung surfaces and a non-reflective satin black finish. When used with our Universal Ladder Detacher, these features combine to create a state-of-the-art rescue system. As with our nylon family of ladders, this device also comes with a sturdy, convenient carry bag.
