LASER-AUDIO SURVEILLANCE

TA02019

PRODUCT DESCRIPTION

The laser-audio surveillance system transmits an invisible infra-red beam to the window of the target room. It allows the operator to carry out undetectable laser surveillance from outside a building up to a distance of more than 500 meters.

FEATURE HIGHLIGHTS

Sophisticated mechanics allow the laser to adjust down to 1/100 millimeters, guaranteeing maximal accuracy.

- A row of innovations added to the redesigned system.
- Two new models available: laser and laser+IR surveillance system.
