VEHICLE DECONTAMINATION

TA10040

*Image is for illustration purposes only

PRODUCT DESCRIPTION

The Decontamination Vehicle is the Chemical Corps' main means of carrying out decontamination assignments. Along with chemical spraying vehicles, it performs the cleaning of military equipment surfaces, spraying of decontamination mixtures and subsequent rinsing according to the line-transit method while meeting accepted decontamination standards, including those of quick relocation and air transport. The washing equipment and spraying frame can be adapted to the types of apparatus in need of cleaning so that the recommended distance is maintained.
