

# ONE SIZE FITS ALL

## Our Solution

A unique and patented solution for mounting accessories on boltless helmets.

HMOUNT solutions deliver easy and quick attachment of various accessories while maintaining high operational capabilities of ground units. Used by the IDF, the Spanish army, the UK army, and more.

With experience in the geometric construction of helmets and plastic composition and operational experience in the field. We design & tailor solutions to meet your needs.

## Our Mission

We aim to deliver optimal operational solutions for military and law enforcement units while ensuring complete and uncompromising safety and moving toward boltless shells as a natural solution.
